

NuFact 04 Summer Institute

4nd International School on the neutrino Factory

July 16 - July 24, 2004
Tokyo Metropolitan University

Organized in conjunction with the NuFact04 Workshop,
Osaka University, July 26 -31, 2004

The aim of the school is to provide young particle physicists with an introduction to both the particle and accelerator physics aspects of neutrino factories and superbeams. The long-term goal of the series is to lay the foundation for a large multi-national group of scientists with the diverse skills that are essential for a Neutrino Factory Complex.

Physics of Massive Neutrinos

Boris Kayser (FNAL)

Technical Challenges of a Neutrino Factory and Superbeams

Robert Palmer(BNL).....

Long Baseline Neutrino Experiments and Detectors
